

CV: Michael E. Purucker

Mailing Address: Planetary Magnetospheres Lab, Code 695, 8800 Greenbelt Rd, Goddard Space Flight Center, NASA, Greenbelt, MD 20771 USA

Telephone: +01-301-614-6473 Cell: 301-793-6535 Email: michael.e.purucker@nasa.gov Date of Birth: 22 Aug 1953 Citizenship: US

CURRENT POSITION

Laboratory Chief, Planetary Magnetospheres Laboratory, Solar System Exploration Division, Goddard Space Flight Center, NASA, Greenbelt, MD. 2015-present

PAST POSITIONS

Chief Scientist, Geodynamics, Geophysics and Space Geodesy Program, SGT, Greenbelt, MD, 1986-2015. Located within the Planetary Geodynamics Lab, Goddard Space Flight Center, Greenbelt, MD

Invited Professor, Geodynamo laboratory, ISTERre, Univ. de Joseph Fourier, Grenoble, France, Fall, 2012.

Visiting Professor, Global COE (Center of Excellence) Program, Tohoku University, Sendai, Japan, Spring, 2011

Invited Professor (1st Class), Laboratoire de Planetologie et Geodynamique, Univ. de Nantes, Nantes, France, 2005, 2008, 2009 ; Visiting scientist 2010, 2011

Visiting Scientist, GeoForschung Zentrum, Potsdam, Germany, Feb.-Mar., 2005; Aug.-Sept, 2006, Oct, 2007, Nov. 2008, Feb, 2009

Invited Professor (2nd class), Institut de Physique du Globe de Paris, Laboratoire de geomagnetisme, Paris, France. Summers of 2000 and 2001.

Visiting Scientist, Geological Survey of Japan, Tsukuba and Kyoto, Japan, March, 1997.

Chief Geologist, Phoenix Corp, McLean, VA, March 1984-November, 1985

Geophysicist, U.S. Geological Survey, Flagstaff, Arizona, Sept. 1976-August, 1981.

Education

Ph.D., Geology, Princeton University, Princeton, NJ, 1980-1984

M.A., Geology, Princeton University, Princeton, NJ, 1980-1982

M.S., Planetary Science, California Institute of Technology, Pasadena, CA, 1975-1976

B.S., Geophysics, California Institute of Technology, Pasadena, CA, 1971-1976

RESEARCH INTERESTS AND SUMMARY

Purucker's interests focus on the role of magnetic fields as fingerprints of processes in planetary lithospheres. Those processes include heat flux, tectonics, insolation, subduction, rheology and basin development. He has worked on in-situ and remotely sensed magnetic field observations from the Earth, Mars, Mercury, and the Moon. In his work for NASA, he has been involved in planetary, and terrestrial orbital and suborbital missions that focus on mapping the magnetic field, and complementary properties. He produced the first global magnetic model of the Moon (Purucker and Nicholas, 2010, Journal of Geophysical Research) and Mars (Purucker et al., 2001, Geophysical Research Letters) and was one of the leaders in the first World Digital Magnetic anomaly Map of the Earth (Purucker, 2007). He is currently the lab chief for the Planetary Magnetospheres Lab at Goddard Space Flight Center. See NASA web page at http://geodynamics.gsfc.nasa.gov/personal_pages/purucker.html for further information.

PROFESSIONAL ACTIVITIES

Geomagnetism and Paleomagnetism (GP) section secretary, American Geophysical Union, 2013-2014

GP section president-candidate, 2014

Participating Scientist: Mercury Messenger, 2008-present

Quality Working Group for Swarm, a satellite constellation to study the dynamics of the Earth's magnetic field and its interaction with the Earth system. 2014-present. Mission Advisory Group (Phases A, B..) for SWARM. Selected for implementation by ESA in May, 2004 and launched in Nov, 2013.

Co-Investigator, CHAMP satellite magnetic field mission, 2001-mission end. (2011)

Co-Investigator and member of the calibration team, Oersted satellite magnetic field mission to map the near-Earth magnetic field, 1999-present.

Co-Investigator and member of the calibration team, SAC-C satellite magnetic field mission, 2001-2004

Member of the US National committee for Geodesy and Geophysics. Promotes the advancement of geophysical and geodetical sciences in the US and throughout the world by participating in the activities of the International Union of Geodesy and Geophysics (2nd 4 year term ends in 2019)

Executive committee, World Digital Magnetic Anomaly Map, 2005-present, 2013-present; Vice-Chair, 2007-2013

Advisor for a Ph.D. student (Cathrine Fox Maule) from Copenhagen University, Dept. of Physics, 2003-2005

Advisor for a Ph.D. student (Benoit Langlais) from the Institut de Physique du Globe de Paris (1999-2001)

Advisor for Montgomery-Blair Science/Math magnet High School student, Ethan Schaler, May 2006-Sept., 2006 Schaler was named a semi-finalist in the 2007 Intel Science and Engineering Fair for his project with me entitled 'Lunar South Pole Hydrogen & Water Ice Deposits: Constraints from Lunar Prospector magnetic field observations'

Advisor for Montgomery-Blair Science/Math magnet High School student, Chris Bodine, Summer, 2008, 2009 Bodine was named a semi-finalist in the 2009 Intel Science and Engineering Fair for his project with me and Herbert Frey entitled 'Magnetization of Lunar Basins and Crater Retention Age: New Analyses of the Pre-Nectarian Lunar Dynamo'

Advisor for Washington International High School student, Joseph Nicholas, June, 2005- August 2006, & 2007, and every summer until he graduated from Durham University in 2011. He then began working full time at NASA for me and other colleagues in the area of magnetic and gravity modeling and analysis. During his first summer with me he submitted a first-authored paper for Geophysical Research Letters, 'Age spot or youthful marking: The origin of Reiner Gamma' which was published the following year.

Proposal Review:

NASA Planetary Mission Data Analysis program, Mercury chair, 2012

NASA Planetary Geology and Geophysics Program Review, Geophysics Panel chair, 2009, 2010, 2012

NASA Mars Data Analysis Program Review, Geophysics Panel chair, 2004

NASA Mars Fundamental Research Program Review, Geophysics Panel chair, 2007

NASA Mars Data Analysis Program Review, Geophysics Panel member, 2002, 2007

NASA Solid Earth and Natural Hazards Program Review, 1996-2003

NASA Earth Science student fellowships, 2007, 2008, 2013

NASA Instrument Incubator Program Review, 2001

NASA EPSCOR Program Review, 2008, 2009

NASA LUNAR Program Review, 2008, 2012

Member: American Geophysical Union, Society of Exploration Geophysicists, Geological Society of America, Geological Society of Washington

Councilor, Geological Society of Washington, 2 year term ended in 2013

Service on a panel evaluating the U.S. Geological Survey program in geomagnetism, 2004-2005.

Service on professional assessment committees for the Technical University of Denmark, Lyngby, Denmark and the Indian Institute of Geomagnetism.

Service on a Ph.D. thesis committee of Universite de Nantes, Nantes, France. I served as the Rapporteur on a thesis by J. Olivera entitled 'The magnetic field of Mercury as measured by the MESSENGER spacecraft, Apr 2015

Service on a habilitation committee of the IPG-Paris for the HDR of Erwan Thebault..2014.

Service on a Ph.D. thesis committee of the Universite de Nantes, Nantes, France. I served as the Rapporteur on a thesis by Y. Quesnel entitled 'Interpretation des donnees magnetiques martiennes : Contraintes sur l'evolution primitive de Mars', Nov, 2006

Service on a Ph.D. thesis committee of University of Sydney, New South Wales, Australia. (Jon Turner, 'Signal processing of satellite magnetic data', May, 2003).

Service on a Ph.D. thesis committee of the Institut de Physique du Globe, Paris, France. I served as the Rapporteur on a thesis by B. Langlais entitled 'Les Champs magnetiques de la Terre et de Mars: Apport des satellites Orsted et Mars Global Surveyor', Oct, 2001.

Service on a Ph.D. thesis committee of the Universite de Bretagne Occidentale, France. I served as the Rapporteur or external examiner on a thesis by N. Grammatica entitled 'Induction electromagnetique globale dans une Terre heterogene: etudes a partir de donnees d'observatoires et de donnees du satellite MAGSAT'. Sept, 2000.

Advisor for a M.S. student (David Lowe) at Scripps Institute of Oceanography, University of California, San Diego, 1998-2000.

Advisor for students (David Benveniste, Sebastien Catz) from the Ecole Polytechnique, near Paris, France. Benveniste completed a thesis for his Bachelor's degree under my supervision in June, 2001 entitled 'The magnetic signature of possible dikes associated with the Pavonis Mons center, Mars'. Catz' thesis was in 2007.

Advisor for a University of Maryland, Physics Dept. Senior, Joseph Covington, in 1992. The project resulted in a peer-reviewed publication 'Improvement of equivalent source inversion technique with a more symmetric dipole distribution model' (Physics of the Earth and Planetary Interiors, v. 76, 199-208, 1993).

Advisor for National Space Club High School students, Philip Goodman, June to August 1998.
Barry Huang, June to August 2002
Christine DeLong, June to August 2003
David Peterson, June to August 2004.
Joseph Nicholas, June, 2005- August 2006, & 2007
Chris Bodine, 2008 and 2009

Program Committee, American Geophysical Union, 2000-2002 Spring meetings, 2013-2014 Fall meetings

Chair or co-chair of the following special symposia:

- 1) Results from the Decade of Geopotential Research and future prospects, 2009, IAGA, Sopron, Hungary
- 1) First Swarm International Science Meeting, 2006, Nantes, France, Local organizing committee
- 2) Near-Earth magnetic field from multiple spacecraft observations, 2006, Fall AGU, San Francisco
- 3) Magnetic interpretation: Continental to Planetary Scales, 2003, Fall AGU, San Francisco
- 4) Analysis of the Oersted, CHAMP, and SAC-C magnetic field constellation, a virtual session held in conjunction with the Spring meeting of the American Geophysical Union, May 28-31, 2002. Available online at <http://www.dsri.dk/multimagsatellites> and on CD
- 5) Earth and Planetary Magnetic Survey Satellites, Spring AGU, 2001, Boston
- 6) Geophysical Data Fusion, Birmingham, United Kingdom, Int. Union of Geodesy and Geophysics, 1999
- 7) Space age geomagnetism, 1997, Spring AGU, Baltimore
- 8) Satellite geomagnetism, 1997, Int. Assoc. of Geomagnetism and Aeronomy, Uppsala, Sweden
- 9) Lithospheric magnetic fields, Boulder, Int. Union of Geodesy and Geophysics, 1995

Journal reviewer for manuscripts submitted to Science, Nature, Journal of Geophysical Research (Solid Earth, Space Physics, and Planets), Geophysical Journal International, Earth Planets and Space, Geophysical Research Letters, and Geochemistry Geophysics Geosystems, Earth and Planetary Science Letters

Guest editor for Tectonophysics (2012-2013) and G-cubed (2012-2013)

AWARDS

Green Prize for "Outstanding Ability and Achievement in the Field of Creative Scholarship," California Institute of Technology, 1976

NASA Public Service Group Achievement Award for Comprehensive modeling. 2009

NASA Group Achievement Award to MESSENGER Mission team, 2008
